

June 2010

Summer Bridge Activities Book K-1

Dear Parents,

During the summer, your child must complete the Summer Bridge Activities K-1 Book. On the first day of school in September, the students must bring in their completed book to their first grade teacher. This book will serve as a review of the concepts learned in Kindergarten. The students should be working in this book daily as to not leave the entire book for the end of the summer. (A suggested pacing schedule: If the students begin working on June 28th, and complete two pages each day, six days a week, they will finish the book on September 4th.)

At the end of each section, there is a set of bonus activities (43-48, 91-96, and 139-144). These are great activities to do with your child, but are not mandatory to complete. The answer key that begins on page 145 describes the tasks for the activities each day. In the back of the book, activity cards are provided, which are great learning tools for the children.

Sincerely,

The Kindergarten Teachers
